# About RAA AOL Fabric Cleaner

RAA AOL Antimicrobial Fabric-Cleaner is an innovative and specialty product manufactured by Ambani Organics Ltd. which is appreciated for its use of unique chemistry in its product.

There is no scarcity of disinfecting products in the market today, so why must someone pick RAA AOL products off the shelf?

Well, that is because RAA AOL Antimicrobial Fabric Cleaner grounds its outstanding performance due to the infusion of a superior ingredient in its formula. i.e. SILVER Ion Technology.

The Fabric cleaner does not only disinfect the fabric during washing, but the SILVER Ion also prevents the metabolism, multiplication and regeneration of pathogenic cells.

## Why is it so Important and Effective?

- The fabric cleaner depletes the enzymes, thus preventing the bacteria from metabolism and multiplication.
- The SILVER Ion breaks the DNA, thus interrupting duplication.

## How to use?

- For Bucket Wash - For the washing and cleansing of infected clothes, add 20 ml of RAA AOL Fabric Cleaner per liter to water that will be used for washing purpose. The use of RAA AOL Fabric Cleaner will result in complete bacteria free fabrics once dried.
- For Machine Wash - Add 10 ml of RAA AOL Antimicrobial Fabric Cleaner to the washing machine. Once the washing is done, the fabric will be completely disinfected from pathogenic activity.

## Areas of Application

RAA AOL Antimicrobial Fabric Cleaner, should be used for the washing of household clothes, bedsheets, curtains, clothes used in medical application, restaurant aprons, sewage cleaning clothes etc.

## Things to take care off

- Store in original HDPE Container
- Keep away from direct sunlight
- Keep away from human contact and consumption

## Other Innovative RAA AOL Product

- RAA AOL Clean Hand Rub
- RAA AOL Anti-Microbial Floor Disinfectant
- RAA AOL Anti-Microbial Fumigation Liquid
- RAA AOL Hand Wash
